Making payments

We offer several easy payment options:

- Pay by mail using the envelope provided
- Visit one of our offices. Each has a 24-hour drop box for after-hours payments
- Pay by phone by calling 360-992-3400
- Pay online using MyAccount at www.clarkpublicutilities.com
- Pay at any of the following locations:
Columbia Credit Union, all Clark County locations
TwinStar Credit Union, all locations
Yacolt Town Hall, 105 E. Yacolt Road

Payment arrangements

If you receive a bill and don't think you'll be able to pay it on time, please call us. We'll be happy to make payment arrangements.

Fee information

If your check is returned for insufficient funds or a closed account, we will charge a fee. We'll charge a late fee for bills more than 15 days past due. The fee is one percent of the past due balance each month, with a minimum monthly charge of \$2.50.

Residential bill disputes

If you believe your bill is in error, contact us. If we can't resolve the dispute, you have a right to a hearing with a hearings officer.

Disconnection

We don't like to disconnect service, but sometimes we have no choice. Service may be terminated for appropriate reasons, including:

- Failure to pay a current or previous bill, a security deposit or to make satisfactory arrangements
- Failure to comply with terms of a deferred payment arrangement
- Unauthorized use of service

Service will not be restored until the situation has been resolved. If service has been disconnected, it is illegal for customers to reconnect it. Offenders will be prosecuted and assessed a reconnection fee.

Other information

For a free copy of our service policies or additional information, please give us a call at 360-992-3000. **Your bill includes charges for electricity, delivery services, general administration and overhead, metering, taxes, conservation expenses and other items.** The utility's fuel mix is available upon request.

Employee identification

Our employees carry photo identification cards. Please ask them for I.D. or call us if you have questions about any activity being performed by individuals representing the utility.

This meter reads 61451

Figuring your electric bill

We measure electricity in kilowatt-hours. One kilowatt equals 1,000 watts. For example, you use one kilowatt-hour (kwh) when you burn one 100-watt light bulb for 10 hours.

Your electric meter keeps a running record of the kilowatt-hours you're using. To read the meter, record the numbers *on each dial*. If the pointer is *not* directly on a number, read the next smallest number. Some meters only record part of the electricity use. In these cases, we use a multiplier to convert the meter reading to actual use.

Figuring your water bill

We measure your water use in cubic feet. One cubic foot is 7.48 gallons. There are two kinds of water meters. One has several dials like your electric meter, and you read it from right to left using the same process you do for your electric meter. The second type reads like a car odometer. The last digit to the right records single cubic feet. This type of meter is read from left to right.

Our tax ID number is 91-6001052

We welcome your comments, questions and suggestions about how we can improve our service.
