Utilities** 

Hundreds of Clark County residents need a warm helping hand

For local families in financial crisis, Operation Warm Heart has been a lifeline for more than 30 years. Funded by donations from utility customers, employees and local businesses, the program helps keep homes warm and safe for Clark County families in need. Please help by making a tax-deductible donation to Operation Warm Heart.

Contributions can be made by submitting a separate check with your monthly bill or you can set up recurring donations to help throughout the year by calling 360-992-3000. Every dollar donated goes directly to helping a local family in need.

We Can Help

If you or someone you know is in need of assistance and may not qualify for other income-restricted programs, call us. Operation Warm Heart provides grants to limited-income customers with electric heat who are in financial crisis but are not eligible for other forms of energy assistance.
