

## Senior Applications Analyst/Developer

### WHAT YOU WOULD DO:

The Senior Application Analyst/Developer will serve as the primary Information Services contact working with the communications business unit staff to identify and design software solutions to facilitate effective business operations and other utility services by performing the following:

- Develop, deploy, and administer CPU Employee Communications Intranet
- Coordinate with users as the SharePoint SME to help structure new SharePoint sites
- Work with Communications Department to develop and implement effective web-based customer communication platforms
- Collaborate with various CPU departments to understand and document business solution needs and communicate conceptual designs and processes
- Architect and develop web framework and applications utilizing TypeScript/JavaScript
- Define business/ technology issues, identify root causes, and develop strategies to resolve problems
- Able to work on small and large projects, both independently and as a team
- Excellent verbal and written communication skills
- Demonstrate positive interpersonal skills to resolve situations
- Provide excellent customer service to our internal and external customers

### QUALIFICATIONS:

- Demonstrated experience in SharePoint 2016 development, deployment, configuration, and patching
- Experience with Windows Server and SQL Server Administration
- Strong web development skills, including experience with Single Page Application Frameworks like Angular, React, or Aurelia
- Experience with .NET, C#, Web Services, and Entity Framework
- Understanding of web application security planning and configuration
- Experience with PowerShell, Cascading Style Sheets (CSS) and HTML
- Microsoft Certification in SharePoint Administration is a plus
- B.S. in Computer Science or related field

Successful candidates must demonstrate the ability to communicate effectively with internal/external customers, possess strong analytical skills to interpret, assess, and integrate complex data from multiple sources as well as provide demonstrated team experience working collaboratively to address common goals. Excellent organizational skills including ability to work effectively in self-directed environment are highly valued.
