

GIS/CAD Technician

This full-time position reports to the GIS/Joint Use Manager and is located at the Operations Center, 8600 NE 117th Ave, Vancouver, WA 98662.

WHAT YOU WOULD DO:

- Updates electric facilities within the utility's GIS Map
- Incorporates as-built prints into the utility's GIS system on a daily basis
- Produces and updates system maps, feeder maps, one-lines, construction drawings and detail drawings for the electric utility
- Field checks utility's GIS maps for accuracy
- Works with engineers and planners to develop CAD drawings from rough sketches or verbal instructions for subdivisions, commercial and industrial projects
- Convert CAD drawings from outside agencies for district use
- Utilizes AutoCAD to produce or update exhibit, technical, substation, and facility drawings
- Knowledge and ability to interpret engineering type technical drawings, schematics and maps required
- Must have outstanding interpersonal skills, be customer service focused, creative, flexible, team-oriented and a self-starter
- Ability to learn and perform complex programming in GIS and AutoCAD
- Ability to work with other departments to identify and implement process improvements that use GIS and other asset data

QUALIFICATIONS:

- Degree, certification, or formal training in GIS related field required
- Work experience editing with Esri's ArcMap
- AutoCAD drafting experience or training
- Familiarity with AutoCAD's AutoLISP routines and CUI menus
- Knowledge of Esri's ArcMap and Schneider Electric's ArcFM and Designer products
- Working experience or background in the electric utility industry

Successful candidates must demonstrate the ability to communicate complicated technical information effectively with internal and external stakeholders. Must demonstrate strong team focus and ability to work collaboratively to achieve common goals. Must have excellent organizational skills including ability to work effectively in self-directed environment.
