

Applications Analyst-Developer / Senior Applications Analyst-Developer

This full-time position reports to the Information Services Business Applications Manager and is located at the Electric Center, 1200 Fort Vancouver Way, Vancouver, WA 98663.

**The position will be filled at the appropriate level based on background and experience.*

WHAT YOU WOULD DO:

- Work collaboratively with business units to understand the needs and objectives of those units and the Utility overall.
- Architect and develop web services and applications utilizing modern development practices, frameworks, and software tools such as ASP.NET/MVC, Angular, C#, and Blazor.
- Define business and technology challenges and develop recommendations and solutions to improve performance.
- Provide support for third-party COTS solutions.
- Ability to work on small and large projects, both independently and as a team.
- Excellent verbal and written communication skills.
- Demonstrate positive interpersonal skills to develop collaborative working relationships throughout the organization.
- Provide excellent customer service to our internal and external customers with focus on the customer experience.

QUALIFICATIONS:

- Demonstrated .NET and C# development skills
- Strong web development skills, including experience with modern frameworks (Blazor experience preferred)
- Familiarity with Web Services and Entity Framework
- Knowledge of relational database design, development, and query tuning; Microsoft SQL Server/T-SQL preferred
- Experience with responsive design for mobile and desktop UI/UX
- Understanding of Continuous Integration/Deployment (DevOps)
- B.S. in Computer Science, related field, or five years' equivalent experience

Successful candidates must demonstrate the ability to communicate effectively with internal and external customers, possess strong analytical skills to interpret, assess, and integrate complex data from multiple sources, and provide demonstrated team experience working collaboratively to address shared goals. Excellent organizational skills, including working effectively in a self-directed environment, are highly valued.
