OCTOBER 2023

CELEBRATE A MILLION TREES PLANTED AT STREAMTEAM'S MAKE A DIFFERENCE DAY

It's a milestone 30 years in the making, and we're hoping you'll help us celebrate.

Join the Clark Public Utilities StreamTeam on Saturday, October 28 as we celebrate 1 million trees planted in our local watersheds and the hard-working volunteers who made it happen.

Rain or shine, we'll come together as a community to celebrate the volunteer spirit and plant hundreds of native trees. Each tree will do its part to improve water quality in our watersheds, provide habitat for wildlife and supply food for pollinators. Be prepared to have a good time, get your hands dirty, meet new people, and make a difference in our community. No experience is necessary. We will provide morning refreshments, lunch and all of the training and tools you need!

Advanced registration is required. Visit ClarkPublicUtilities.com/streamteam for more information about StreamTeam and Make a Difference Day or scan the QR code to learn more.

LIGHT LINES

**SAFEGUARD IS A
SAFEGUARD FOR
THE COMMUNITY**

SafeWatch is the logo to look for if help is needed.

Clark Public Utilities, C-TRAN and other public and emergency response agencies partner in the SafeWatch program to provide a visible safety resource on the streets of Clark County.

If help is needed, look for a vehicle with the SafeWatch sticker! Every utility vehicle is part of SafeWatch along with many city, county and public safety vehicles. If you need help, wave your arms overhead to signal the driver. Many are trained in CPR and first aid or can radio or call for assistance.

CELEBRATING THE BENEFITS OF PUBLIC POWER THIS MONTH

Every October, Clark Public Utilities and other public utility districts, municipal utilities and electric cooperatives across the country celebrate Public Power Month in honor of

the many benefits nonprofit, customer-owned electricity provides.

More than 2,000 community-owned electric utilities energize the economies and power both work and play for nearly 50 million customers in 49 states.

Public power utilities put customers' best interests above all else. People, not profits, set our priorities, which remain affordability, reliability and responsibility as we provide the best customer service possible.

Clark Public Utilities was created by a vote of the people right here in Clark County, in 1938. And this year marks the 85th anniversary!

Led by a three-person board of elected commissioners, this utility delivers at-cost electricity to about 230,000 homes and businesses, and water to 40,000 customers in Clark County.

When our customers face financial challenges, public utilities are there to help with financial assistance programs and energy efficiency incentives to reduce energy waste and lower costs.

Public utility employees help local businesses of all sizes get the service and support needed to grow the economy and build thriving communities without wasting energy.

Our employees are customers too, and together we're committed to delivering the best service possible, every day. That's why we're always a phone call away, 24 hours a day, seven days a week.
