

We're Hiring

IT Cybersecurity Systems Engineer / IT Senior Cybersecurity Systems Engineer

This full-time position reports to the Business Systems Manager and is located at the Operations Center, 8600 NE 117th Avenue, Vancouver, WA 98662.
The position will be filled at the appropriate level based on background and experience.

WHAT YOU WOULD DO:

- Work with departments to define and analyze business requirements, and design solution proposals for review.
- Collaborate and contribute to the security of technology and information systems, including internal IT systems, ecommerce, and web or cloud based systems.
- Contribute to the design, testing, and implementing of solutions to achieve cyber resiliency.
- Research and evaluate new and emerging threats and make recommendations on best practices to safeguard Utility systems and data.
- Accountable to design, develop, implement, document and maintain technology strategy to ensure business continuity and ability to successfully implement disaster recovery process for assigned area(s) of technology focus.
- Ensure operational standards are current with updated, changed or replaced equipment. Develop and publish appropriate end user documentation.

QUALIFICATIONS:

Associates degree in IT area and eight (8) years of experience as a systems engineer with cybersecurity responsibilities. Bachelor's degree in technology or cybersecurity preferred. Cybersecurity certification from reputable organization or ability to obtain within 6 months. Administrator level experience in at least two technologies: Network (Cisco, Juniper or equivalent), Microsoft Operating Systems, Storage, Exchange, Citrix, VMWare, SQL, LINUX. Strong knowledge of Microsoft Windows and Microsoft Office Suite. Successful candidates must demonstrate the ability to communicate effectively with internal and external customers, possess strong analytical skills to interpret, assess, and integrate complex data from multiple sources, and provide demonstrated team experience working collaboratively to address shared goals. Excellent organizational skills, including working effectively in a self-directed environment, are highly valued.

BENEFITS:

Employees and dependents are eligible for medical, dental, vision, basic life insurance and disability insurance. Employees are enrolled in Washington State PERS and may enroll in deferred compensation plans. Employees will also receive eight hours of vacation leave and sick leave every month and twelve paid holidays throughout the calendar year.

SALARY:

Clark Public Utilities' salary ranges are market based and established annually. With full competency in the role and satisfactory performance the target is midpoint within the established range.

2024 range – IT Cybersecurity Systems Engineer: \$65,599 – \$83,596 - \$101,596

2024 range – IT Senior Cybersecurity Systems Engineer: \$81,303 - \$103,961 - \$126,619

HOW TO APPLY:

Please send your resume with a cover letter via email to jobs@clarkpud.com. Resumes may also be sent to Clark Public Utilities, Human Resources Department, P.O. BOX 8900, Vancouver, WA 98668.
