

Tier 2 Accelerator Program

We've partnered with Stillwater Energy to provide FREE energy consulting to get your building(s) in compliance with the WA Clean Buildings Performance Standard.

PROGRAM OVERVIEW

- **Learn how the law affects your Tier 2 building(s):** Unpack the complexities of the law and prepare to meet compliance requirements
- **Go at your own pace:** Register for individual webinars to learn about and implement the key components of compliance
- **Comply Early:** We will support you with submitting for compliance early so your building(s) can access the Tier 2 Early Adopter Incentive funds (\$0.30/sqft)

BENEFITS

- Early Compliance with the WA Clean Buildings Performance Standard and access to incentive funds
- Energy savings, carbon reduction and reduced operational costs
- Introduction to Clark PUD's incentive programs that apply directly to your needs

ACCELERATOR WEBINAR SERIES

- **Webinar 1:** Benchmarking and Energy Use Intensity
 - Benchmark your building in ENERGY STAR Portfolio Manager with 24 months of utility data
 - Obtain your Energy Use Intensity (EUI) and calculate your Energy Use Intensity Target (EUIT)
- **Webinar 2:** Energy Management Plan (EMP)
 - Learn EMP requirements and populate you're EMP template
 - Design effective strategies for engagement to cultivate buy-in for energy improvement
- **Webinar 3:** Operations and Maintenance Program (O&M)
 - Learn O&M requirements and implement plans to develop your O&M Program with emphasis on preventative maintenance

ONGOING SUPPORT & SAVING ENERGY

- **Incentives:** Learn about common energy saving opportunities and available Clark PUD incentive programs for your building(s)
- **Office Hours:** Attend program Office Hours to ask questions and receive catered compliance support for the nuances of your specific building(s)

ELIGIBILITY/ WHAT IS A CBPS TIER 2 BUILDING?

- A building where the sum of sq.ft of commercial use is 20,000 - 50,000 sq.ft. OR the sum of multifamily residential use is 20,000 sq.ft. and above (excluding parking garage area)
