*To qualify for rebates with Luminaire Level Lighting Controls (LLCs), the control product must be listed on the Design Lights Consortium Networked Lighting Control Qualified Products List as meeting Technical Requirements for NLC5.0 or later.

Type A: Insta-fit or ballast compatible, Type B: Ballast bypass, Type A/B: Insta-fit or ballast compatible and ballast bypass, Type C: Uses a compatible LED driver only

Must purchase through a participating distributor. Distributors may not offer all available rebates.

Rebates through the CLIP program may be higher for some products and additional offerings may be available. Products purchased through the BILD program are not eligible for rebates through the CLIP program.

Questions? Contact CLIP/BILD Program Manager, Mike Wallace at (360) 992-3135 or mwallace@clarkpud.com

Your energy savings and project costs will vary. Program requirements and rebate amounts are subject to change without notice. We do not endorse any particular contractor, manufacturer or product. We make no express or implied warranties of these products or installations. There are limits to rebates and grants (when available).
